

FileTree
=====

FileTree is a FreeWare tool from GreenHouse.
It displays all partitions and alternate key files belonging
to a file.

FileTree does NOT support SQL type files, but ENSCRIVE tyle files only.

Command syntax is:

```
[run] FILETREE [/OUT [out-file]/] [-H[ELP]|<template>]
```

e.g.

```
$GHS1 FILETREE 8> filetree
Primary File      $GHS1.FILETREE.EXECMGMT
Alternate File    $GHS1.FILETREE.EXECMGM0
                  $GHS1.FILETREE.EXECMGM1

Primary File      $GHS1.FILETREE.TEST
Primary Part     $SYSTEM.FILETREE.TEST
                  $DSMSCM.FILETREE.TEST
                  $GHS2.FILETREE.TEST

$GHS1 FILETREE 9>
```
