

MYSUB is freeware from GreenHouse Software & Consulting

MYSUB displays all subvols, where a given user is the owner of at least one file.

Command syntax is:

```
[run] MYSUB /[OUT <file>/] <template>[[,]USER <ID>|<name>]
```

where

```
<template>  is a file name template.  
<ID>        is a user ID, e.g. 100,5  
<name>      is a user name, e.g. GHS.CARL, or CarlWeber
```

e.g.

```
MYSUBVOL $*  
  displays all subvols, where the actual user is the owner of at  
  least one file
```

```
MYSUBVOL $GHS1.*,USER GHS.MARTIN  
  displays all subvoles from $GHS1, where GHS.MARTIN owns at  
  least one file
```
